

TEXAS EXPLORATION

Building enduring businesses in Central Texas

About Me

I spent the last 10 years working in the tech industry as an engineer, engineering manager, and founder. In that time, I was an award-winning web developer, ran the second largest campus of a very successful coding bootcamp (\$7M/year), started and sold a software product agency, and founded a VC-backed startup in the blockchain industry. Before all that, I worked for a large corporate law firm doing M&A. Now I'm focused on acquiring and operating an enduring business in Central Texas, bringing my experience in operations, leadership, and sustainable growth to preserve an owner's legacy -- and build my own.

Investment Criteria

- \$500K–\$1.2M in SDE with stable or growing revenues
- Established customer base with recurring revenue or repeat clients
- Located in Central Texas (Austin, San Antonio, surrounding areas)
- Medium-skilled blue collar businesses (manufacturing, distribution, specialty trades)
- Strong team in place with potential for continuity

Why Texas Exploration

Long-term ownership

Building for decades, not quarters—ready to relocate and take operational leadership

Legacy preservation

Honoring culture and values, ensuring continuity for employees and customers

Committed capital

Well-capitalized with backing from experienced investors who understand the acquisition process

Operational excellence

Track record of improving operations, from increasing revenue to managing high-performing teams

Hands-on leadership

15 years of leading diverse teams from 6 to 50+ people across law, tech, education, and hospitality
